Time: 1 Hour

Age group: 8-14

5 GENDER EQUALITY

What does Gender Equality mean?

In the world today and as defined within the Global Goals, Gender Equality means:

- End all forms of discrimination against all women and girls everywhere.
- End all forms of violence against women and girls.
- End all practices and traditions that may impair the physical, mental and sexual health of women and girls.
- Recognize and value women's work at home. Encourage women and girls to have equal opportunities to be heard and to have real opportunities to participate in all political, economic and public spheres.
- Protect women's rights to sexual and reproductive health.
- Promote policies and laws to ensure gender equality including reforms to give women equal access to ownership and control over land and other forms of property, financial services, inheritance, and natural resources. End all forms of discrimination against all women and girls everywhere

This project enables you to think about and contribute to encouraging women and girls to have equal opportunities to be heard and to have real opportunities to participate in all political, economic and public spheres.

Instructions for completing your survey and poster

Calculate your gender ratio.

Total the number of crosses in each column and put that number in the bottom row.

Add the column totals together. For example if you have answered **every question** then the sum of all the columns will be 12.

How to calculate your ratio:

$$\frac{\text{Female column total}}{\text{sum total}} \times 100 : \frac{\text{Male column total}}{\text{sum total}} \times 100$$

So for example, if you answered all the questions and recorded 2 females and 10 males in your survey, your calculation would be:

$$\frac{2}{12} \times 100 : \frac{10}{12} \times 100$$

$$= 16.66 : 83.33$$

$$= 17 : 83$$

Now express your ratio like this %females : %males e.g. 50 : 50 or 17 : 83

The sum of the two sides of your ratio should equal 100 and remember to put the female figure on the left, the male figure on the right.

Complete your poster

Fill in the boxes at the top of the poster

We want to know where you are but if you don't want to include your name, that's fine.

Take your ratio for the female side e.g. 17

Colour in the shape on the female side that represents 17% on the scale, this would be an approximate shape slightly smaller than the figure outline at the 20% mark.

Using a different colour do the same for the male side on the right.

Write your ratio clearly in the box below your image so that we can see it.
